

Hydrogen Sweden

PROMOTING HYDROGEN AND FUEL CELLS AS A PART OF A SUSTAINABLE ENERGY SYSTEM

Hydrogen Sweden is a Public Private Partnership with members and financiers from industry, academia, NGO's and local, regional and national government. The partnership promotes a balanced and pragmatic approach to hydrogen. Hydrogen Sweden is non-profit, includes about 50 members at the moment and is growing.

The partnership's mission is to facilitate the introduction of hydrogen as an energy carrier in Sweden. To do so we initiate demonstration projects, disseminate information and strengthen the collaboration between actors from various fields with a joint interest in hydrogen. We are also open to exploring synergies with other technologies.

Hydrogen Sweden is part of the **Scandinavian Hydrogen Highway Partnership, SHHP**, whose vision is to make the Scandinavian region one of the first in Europe where hydrogen is commercially available and used in a network of refuelling stations. We are also partners in two EU funded projects, "H2Moves Scandinavia" and "Next Move" which both aims to accelerate the commercialization of hydrogen for transport and increase the number of FCEVs (Fuel Cell Electrical Vehicles) on the Scandinavian roads.

Hydrogen Sweden is the Swedish representative in the European Hydrogen Association.

HYDROGEN SWEDEN CONTRIBUTES TO

- Increased knowledge and awareness about the potential of hydrogen as an energy carrier
- More practical applications and demonstrations of hydrogen and fuel cell technologies
- Involving more actors with interests in the hydrogen area.
- Hydrogen being included to a larger extent in political strategies, regulations and legal framework as well as in research programmes.
- Economical growth and more working opportunities in the trade and industry related to hydrogen

OUR FINANCIERS AND MEMBERS

- A2Nomia
- AGA Gas AB
- Air Liquide
- Aquagas AB
- Argentis
- Arise Windpower
- Autoliv
- Ballard Power Systems
- BMW Sweden
- Chalmers EnergyCentre
- Consat Engineering
- Eka Chemicals
- E.ON Sverige
- Epsilon
- ETC Battery and FuelCells
- Falkenberg Energy
- Grontmij
- Göteborgs Gatu AB
- Göteborg Energi
- Honda Sweden
- Hyundai Sweden AB
- INEOS Chlor Vinyls
- Innovatum
- Intertek
- IVL Swedish Environmental Research Institute
- Jämtlands County Energy Agency
- KTH - Royal Institute of Technology
- Malmö City
- Mercedes-Benz Sweden
